My First English Words Flashcards

How to use your flashcards

Print the cards on thicker paper (250–300 gsm works best).

When printing, make sure to select “Actual size” or 100% scale in your printer settings (do not use “Fit to page”). Each card should measure 95 × 67 mm (approx. 3.74 × 2.64 inches).

You can laminate them if you want them to last longer.

Trim the white outer margins, then cut along the dotted lines to separate each card.

About the flashcards

The flashcards are color-coded. Each unit from *My First English Words* activity book by Iris Inkwood (available on Amazon) has its own color, making it easy to organize and review. The flashcards can be used independently or with the activity book.

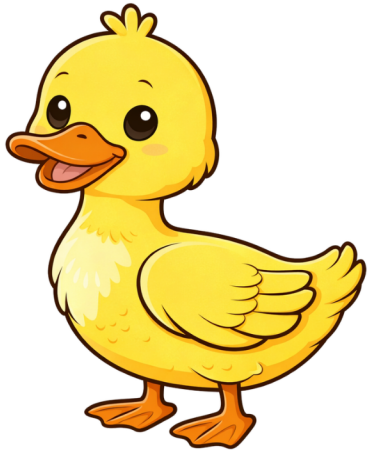

Additional resources:

You can download a free STL file to 3D print a storage box for your flashcards.
There is also an optional learning station that supports independent, hands-on learning.
The learning station and storage box are completely optional. The flashcards work perfectly on their own.
